THE BEST LITTLE

This is a photographic record of the Best Little High School in the State. We tried to include as many people and activities as possible. It's been a spirited year, a fast and learning year. We hope to have captured the smile over the frown — the positive over the negative. Our emphasis is growth through education and that is the biggest little approach we can offer.

ARKANSAS

DEDICATION

The 1982-83 Annual is dedicated
to
Mr. Richard Paul

The class of 1983 was first acquainted with Mr. Paul during the fall semester of 1977. He was our history teacher and assistant principal. We were naive, scattered and a little scared. He pulled us together as a class teaching us not only history and how to become better people.

Mr. Paul's influence over the entire high school was to demonstrate the effects of discipline and academics. His ambition was to produce quality students — productive in society. We, the class of 83, believe he has succeeded and it is to his courage, hard work and guiding hand we say thank you and keep up the good work.

PRESENTED BY

First National Bank of Berryville

The offices and classrooms of this school echo with activity, the sounds of progress and forward movement. Our books open and ideas and discussions coupled with discipline are producing positive results. Our students are spirited, our administration and faculty is a winning combination.

We will stack our efforts against any high school in the state and when the curtains have been drawn, the dust settled, they will know that the Berryville High School education program is a model to be followed.

WE GIVE YOU THE 1982-83
BOBCAT YEARBOOK.

Dear Parents,

We the seniors of 1983 would like to express our deepest and most sincere gratitude for the completion of twelve years of school. Without your love and concern, we couldn't have made it this far.

We'll Love You Always,
1983 Seniors

A vertical strip of stylized, abstract, blocky characters, possibly representing a sequence of letters or a decorative border. The characters are drawn with thick black outlines and are arranged in a vertical column. The style is reminiscent of early 20th-century graphic design or a specific typeface. The characters are not clearly legible as standard text but appear to be a sequence of related forms.
